

Psychology of Money Business Simulation

"Driving success with smarter finance and streamlined operations."

About the Simulation

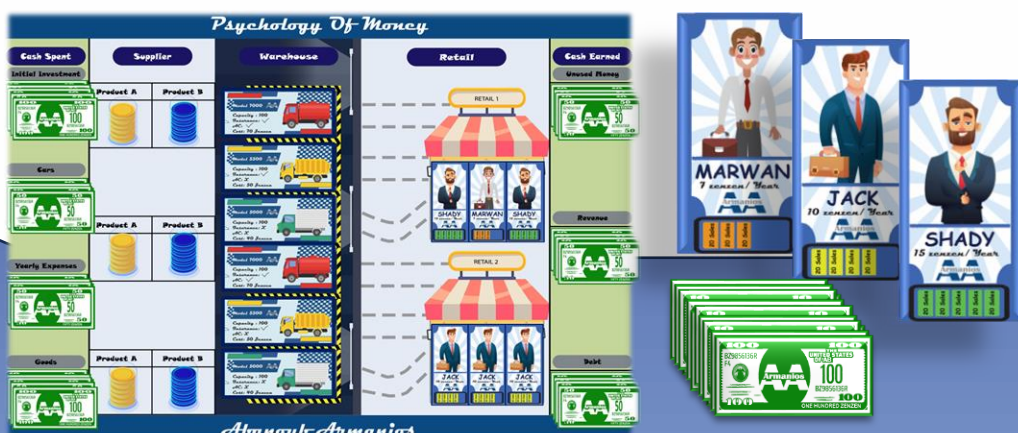

Psychology of Money is a business simulation that dives into the decision-making dynamics behind financial acumen and operational excellence. Participants step into the shoes of corporate leaders navigating real-world challenges, from resource allocation and risk management to strategic investments and cash flow optimization.

- **Duration:** 6 hours (split into four rounds of gameplay).
- **Participants:** 12-20 participants, grouped into 4 teams.

Who Benefits?

Psychology of Money is ideal for professionals who want to sharpen their financial acumen, including:

- **Decision-makers** in business leadership roles.
- **Senior operation staff** managing streamlines.
- **Corporate teams** striving for strategic alignment and competitive advantage.

Psychology of Money

Business Simulation
