TRAINING & SIMULATION

CRISIS & DECISION-MAKING

Aftermath

BUSINESS SIMULATION

"Empowering business leaders to thrive under pressure and adapt strategically."

DURATION

6 hours · 3 rounds

PARTICIPANTS

12-25 · 5 teams

FORMAT

Multiplayer · map-based

SECTORS

5 market sectors

About the simulation.

Aftermath is a cutting-edge business simulation built for corporate education. Participants are immersed in a post-crisis world where survival hinges on critical business decisions made under resource constraints — sharpening decision-making, strategic thinking and resource management across teams.

WHO BENEFITS

Built for the people who carry the decisions.

Business decision-makers

Leaders making high-stakes calls under uncertainty.

Senior sales staff

Professionals managing high-stakes portfolios and markets.

Cross-functional teams

Groups building strategic alignment and resilience.

INSIDE THE KIT

Construction

Food

Health

Education

Competencies **developed.**

01 Strategic Thinking

Analyze market dynamics, anticipate trends, and position the business for long-term success.

02 Decision-Making

Weigh options under pressure and make informed, profitable choices.

03 Resource Management

Optimize limited resources for maximum impact.

04 Customer Focus

Identify and address customer priorities to drive satisfaction and loyalty.

05 Team Collaboration

Foster cooperation and alignment within diverse groups.

06 Adaptability & Resilience

Navigate uncertainty and shift strategy as conditions change.

LEARNING OUTCOMES

By the end, participants will...

- ✓ Master effective decision-making in high-pressure situations.
- ✓ Build customer-centric strategies that meet real market demand.
- ✓ Balance short-term gains against long-term goals.
- ✓ Enhance team collaboration and cross-functional alignment.

Bring Aftermath to your team.
